One Day State Level Webinar on "LEARN FROM NATURE TO SUSTAIN IN FUTURE"

About the Webinar

The ECO-CLUB of our college aims to educate our students about their immediate environment, so that these young learners can become more aware about the environment, learn various eco-friendly ways to efficiently preserve the environment to make it cleaner and greener. Every year we celebrate Earth Day, World Environment Day, Van Mahotsav and Environmental Awareness Month by organizing various educational lectures by learned persons, sapling plantation drive, poster presentation and various other community participation activities. These initiatives help to make our students' environment conscious and responsible citizens so that they can preserve our Mother Nature.

This year due to the pandemic situation the ECO-CLUB of Kishore Bharati Bhagini Nivedita College (Co-Ed.) in collaboration with IQAC has made a humble effort to celebrate World Environment Day and Van Mahotsav Week conjointly to create 'Environmental Awareness' as well as celebrate the 'Festival of Life by Planting New Trees'. This year we will celebrate on virtual platform with a deliberation by our esteemed invited speaker Dr. Anirban Roy and our Students too will participate by presenting Photographs of Sapling Plantation and Posters Presentation.

We believe that this webinar will benefit our colleagues and students to become more environmentally aware. Looking forward for your kind cooperation and active participation.

Dr. Anupriya Chatterjee
Convener and Assistant Professor
Department of Geography
