Date: 14/12/2022

Theme or Title	Cultural Diffusion: Culture, Technology and Development.
Details of Speaker	Dr. Rajasree Banerjee Controller of Examination. West Bengal National University of Juridical Sciences.
Details of Webinar	<p>She discussed the concept of Cultural Diffusion in Geography. Cultural diffusion is the process through which cultural elements such as ideas, styles, religions, technologies, languages, and other practices are spread from one society or cultural group to another. This process can occur in various ways, including:</p> <ol style="list-style-type: none">1. Direct Diffusion: This happens when two cultures are very close to each other, resulting in intermarriage, trade, and even warfare. For example, the spread of European culture to the Americas through colonization.2. Indirect Diffusion: This occurs when cultural traits are passed from one culture to another through a middleman or another culture. For example, the spread of Chinese culture to Europe via the Silk Road.3. Forced Diffusion (or Expansion Diffusion): This happens when one culture conquers or enslaves another and imposes its customs on the conquered people. For example, the spread of Christianity by the Roman Empire. <p>Cultural diffusion can have both positive and negative impacts on societies. It can lead to the exchange of beneficial innovations and ideas, enriching cultures and fostering understanding and cooperation. On the other hand, it can also result in cultural homogenization, loss of cultural identity, and conflicts between different cultural groups.</p>
Name of Convener	Dr. Anupriya Chatterjee, Head and Assistant Professor Department of Geography.
Other Members of Geography Department	Sri Prakash Mistri, Assistant Professor Dr. Mohana Basu, Assistant Professor Dr. Poulami Chakraborty, SACT- I Somen Ghosh, SACT- I Somnath Mukherjee, SACT- I
Name of Organizing Committee	Organized jointly by the Department of Geography and IQAC of Kishore Bharati Bhagini Nivedita College (Co. Ed.)
Number of Participants	47
