**DEPARTMENT OF GEOGRAPHY**

**OPEN BOOK EXAM OF SEMESTER – IV AND SEMESTER – VI HONOURS AND  
GENERAL HELD ON 18.05.2022**

Open book exams are becoming increasingly popular in educational systems worldwide, and they offer several advantages that align with modern learning objectives. Open book exams prioritize understanding over memorization, reflecting real-world situations where accessing resources is key. They encourage critical thinking by requiring students to analyze and apply information rather than recall it. These exams reduce stress associated with traditional testing, foster lifelong learning skills, and provide a more inclusive environment for diverse learners. Particularly in fields requiring practical skills, open book exams offer a more accurate assessment of abilities. While open book exams have many advantages, they also require careful design to ensure that they effectively assess the intended learning outcomes. The questions should be structured in a way that challenges students to apply their knowledge, rather than simply look up answers.

Thus, in GEOGRAPHY DEPARTMENT we try to conduct Open Book exam to give the students an exposure of modern learning methodologies. Open book exams shift the focus towards comprehension, application, and analysis, encouraging students to understand concepts deeply rather than simply recalling information.
