Academic learning and value of the trip

Like every other year the Department of Education along with other departments of Humanities at college made a short study tour to the above-mentioned spot. The pupils were acquainted to many valuable characteristics and principles, demonstrated by sundry objects and daily experiences of various streams of sciences like physics, life sciences etc.

The rides, shows experienced by enthusiasts rare as follows-

The Dark ride, The Panorama, Science on a Sphere and the 3D theatre. The whole experience was special because the arts pupils who have very little connections with scientific research and inventions rediscovered the gamut of scientific experiments. The trip extended them a golden chance to brush up on many of their science lessons that they left behind at school. Hence this experience may reignite the scientific curiosity and aptitude in them, that might prove immensely handy in the coming years in their lives.
